PRF Pure Facial Aesthetics

- the i-PRF™ approach

Lectures by Dr. Cleopatra Nacopoulos

Pure Facial Aesthetics - the PRF approach

Lecture by Dr. Cleopatra Nacopoulos *BSc, DDS, MSc, PhD.*

Learn new opportunities within rejuvenation of the facial area regenerating a younger appearance by stimulation using the patient's own growth factors and stem cells.

The i-PRF™ and Liquid A-PRF +™ technique are groundbreaking and will set a path with less need of botox and filler - take a competitive step and learn how!

You will learn how to do **pure facial aesthetics** in different ways using dermapen, syringes and needles. We will teach you how to perform lip rejuvenation from the inside as well as from the outside.

The course will partly be theoretical and partly practical. There will be live demonstrations showing step by step how to do face, lips and neck region.

The course is aimed at healthcare professionals who either want to include a pure perspective or want to engage in the new line of facial aesthetic business.

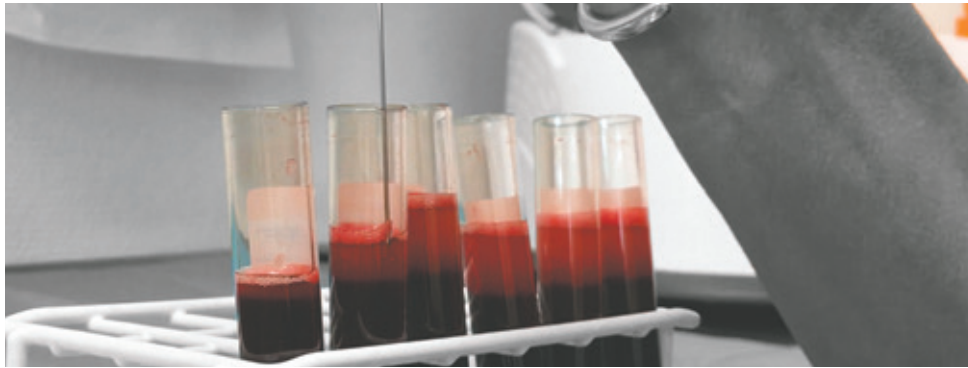

Points: 5,5 points

Dr. Cleopatra Nacopoulos

Has since 2003 performed Facial Aesthetics treatments using growth factors from blood concentrates (PRP) and using fillers, botox and PDO Threads.

Has in the past couple of years made the shift to i-PRF™ in close relationship with Dr. Joseph Choukroun. Work today with i-PRF™ and Liquid A-PRF™ and PDO Thread with remarkable results.

9/9 PROGRAM

Pure Facial Aesthetics with
patients cells and growth
factors

Lecture by
Dr. Cleopatra Nacopoulos
BSc, DDS, MSc, PhD

Saturday 9th of September

- 09:00 Aging processes and facial
anatomy-physiology
- 10:30 Traditional anti-aging treatments
vs Pure Facial Aesthetics (PFA)
- 12:00 Lunch
- 13:00 PFA procedures and protocols
- 14:30 Live demonstrations
- 15:35 Discussion
- 16:00 Certificates
